

**Border Battle Boogie
Endurance Event
Covid-19 Preparedness Plan
Version 1 2021**

Designated Plan Administrator: Debra Moe

Riders will be informed of this Covid-19 preparedness plan before the event.

If riders are sick, they STAY HOME.

- **For all persons who are fully vaccinated against Covid 19, face masks and social distancing is no longer mandated. All others are encouraged to wear a mask where it is not possible to maintain a distance of at least 6 feet. As we return to a more 'normal' ride-camp some of these guidelines have been slightly modified due to the recent CDC and State of Minnesota announcements.**
- Campers will be encouraged to be self-sufficient. For example, arrive prepared with their own soap, surface disinfectant supplies, hand sanitizer, paper towels/hand towels and toilet paper, in case these necessities are not available onsite. A portable handwashing station will be located near the office for all to use.
- Registrations and entries, as much as possible, will be done online and via mailings before the event. At the event, any paperwork collected will be done outside, and with minimal contact.
- This Covid-19 plan, along with trail maps and a written "rider's meeting" will be available for download prior to the event while also providing copies at the entrance of the event. If a participant has not pre-entered, they will also receive an entry form and ride card at this time.
- Participants will be asked:
 - 1) to wash hands often with soap and water for at least 20 seconds; if soap and water are not readily available, use a hand sanitizer containing at least 60% alcohol.
 - 2) to avoid touching eyes, nose, and mouth with unwashed hands.
- Riders, workers, and volunteers should use proper handwashing, observe respiratory etiquette, and avoid using others' phones, stethoscopes, heart monitors, and other equipment. There will be access to handwashing/hand sanitizing facilities and supplies.
- Surfaces such as restroom doors and other items that are high-touch will be regularly cleaned and sanitized.
- Ride management will provide extra masks in camp.

Camping – Dispersed campsites

Campers in will be directed to maintain at least 20 feet between trailers and camping equipment. Campsites will be set up —sleeping, campfire and eating areas— to maximize distance from adjacent campsites that host people from different households.

Vet Area

Pre-ride vetting and pulse boxes will be delineated keeping horses at least 12 feet apart.

Crew Area

Riders will be encouraged to crew at their campsite. There will also be a large designated area where crew items can be spread out.

Potluck

There will be no potluck. Meals can be purchased in the office or a restaurant is within walking distance.

Awards

Weather permitting, award ceremony will be held both days. A volunteer will place the awards on a table, call out the winner, and allow space for the award to be picked up.
